Description:

Giraffe Lofts is a family-run loft conversion business that puts customers' desires at the heart of their build. With more than 15 years experience building lofts, extensions and conversions there is no dream we cannot interpret and help fulfil, whether you live in a tight terraced house or a sprawling bungalow. We can help you create more bedrooms in your home, that extra bathroom you need, a home office, walk in wardrobe or even a cinema room in the sky – the only limit is your imagination. With recent changes in stamp duty costs, spiralling house prices and a fairly flat employment market we know our clients are looking to get the most out of their current assets; their home. Creating high-quality, well designed, additional living spaces in the roof not only gives your family, or home business, the opportunity to grow, but also enhances the value of your property when the time is right to move on. At Giraffe Lofts our small teams of two personally project manage your build, liaising with you, co-ordinating tried and tested accredited tradesmen and delivering a superior quality final product, on time. We understand that having work done to your home can be a daunting prospect and clients worry about the disruption it will cause, but we take the stress out of the project by keeping you informed and up-to-date with progress throughout the project. Based in Enfield, we work across north London and Hertfordshire. Get in touch
